Ice ice, baby

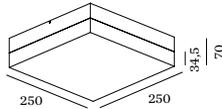

What turns every beverage into the perfect summer drink? A few refreshingly chilled ice cubes, of course. And that is exactly what provided the inspiration for MIRBI, whose glossy look is guaranteed to attract everyone's attention. Its secret? A sandblasted inner surface that ensures a particularly soft and gentle light. The shimmering acrylic luminaire can be used to create dramatic highlights both in the living area and in the bathroom. After all, MIRBI is IP44 certified and keeps a cool head even in damp conditions. Cubes aren't your thing? Then you can choose MIRBI's long or round versions for your home and explore many different shapes and design possibilities.
